

AGUA QUE VA A CAER

– Carlos Valdés/Eugenio Arango –

Malos **tiempos**, yo no **quiero**
que me **traigan**, desatino en mi soledad

Bad times, I don't want
that they bring me challenge in my solitude

Angel divino, yo no **quiero**
en mi **camino**, la fatalidad

Divine angel I don't want
misfortune in my path

Cuando veo al **cielo**, que se esta nublando
cuando veo al **cielo**, que se esta nublando

When I look at the sky clouding up
when I look at the sky clouding up

Agua que va a caer
te **juro** que va a mojar

How the water is going to fall
I swear to you that it's going to drench

Agua que va a caer
Te juro que va a caer

How the water is going to fall
I swear to you that it's going to fall

Agua que va a caer
Que agua que va a mojar

How the water is going to fall
How the water is going to drench

Agua que va a caer
Que va a caer, que va a caer

How the water is going to fall
How it's going to fall, how it's going to fall

Agua que va a caer
Caballero no sé porque

How the water is going to fall
Sir I don't know why

Agua que va a caer
Yemayá 'lodé me permité

How the water is going to fall
Yemayá, mother of open spaces, permit me

Agua que va a caer
Pero oye que buena mi rumba está

How the water is going to fall
But listen how good my rumba is

Agua que va a caer
Si yo me muera, caballeros recordame

How the water is going to fall
If I die, gentlemen, remember me

Agua que va a caer
Caballero ya tu lo ve

How the water is going to fall
Sir, now you see

Agua que va a caer
Yemayá 'lodé no sé porque

How the water is going to fall
Yemayá of open spaces, I don't know why

Agua que va a caer
Caballeros la rumba buena ae

How the water is going to fall
Gentlemen, the good rumba

Agua que va a caer...

How the water is going to fall...
